

DELHI PUBLIC SCHOOL, GBN

CLASSES-NURSERY- XII

DPS/GBN/CIR 1530

Date: 12.09.2017

Dear Parent,
Greetings!

We are shocked and deeply saddened by the incidents of abuse and violence which have occurred in schools recently. These unfortunate incidents have propelled us to review the safety and security of our students in DPS, GBN.

In continuation to the SMS sent to all of you on September 11, 2017, I would like to stress that our school is safe and secure for students with highly vigilant security staff and teaching staff on duty. The 124 CCTV cameras are installed at strategic points across the four buildings to cover the entire school. To strengthen the security further, the undersigned has conducted strategic meetings with the school's security team, teaching & non teaching staff, housekeeping staff and Transport Department so that gaps in security, if any, could be plugged.

The following steps have been taken to reinforce the safety arrangements already in place to ensure the safety of students while at school:

1. The security staff and guards have had their training reinforced so that they will be extra vigilant at their posts.
2. The washrooms will be supervised by lady attendant. Teachers would also take frequent rounds inside.
3. The CCTV cameras will be installed to cover the entry and exit to all washrooms.
4. The transport staff has never had any access inside the school building. Students are escorted to buses by the teachers.
5. Separate waiting room with attached washrooms/drinking water facility is provided to all drivers and conductors, hence barring their entry in the school premises.
6. The Transport Department has ensured that the contractors have done the police verification of each driver & helper. The copies of their identity cards (Aadhar Card or driving licence etc.) are in the school's records.
7. If the driver or helper of any route will be changed, the parents will be informed of the same immediately.
8. All buses are already installed with Speed Governors, GPS devices and CCTV cameras.
9. The dispersal of Supervision students and buses are already done from different gates.
10. We have the following Committees in place to ensure the complete protection of children's rights: POCSO, Sexual Harassment, Anti Bullying, Child Welfare, Disaster Management and Flying Squad.
11. All parents are hereby informed that they won't be allowed to enter the school at any time without their ward's Supervision Card. This rule is in place only for the safety of our wards.

We would like to assure you that the school provides a healthy, safe and secure environment for each child under our care. We urge you not to panic and blindly trust messages going viral on social media.

We rely on your full hearted support and cooperation in making the school a safe haven for our children.

Warm Regards,

Principal
