New Beginnings Bash

DPS-GBN Welcomed Back Young Learners with Joy and Fun!

The School corridors echoed with laughter and excitement as our bright-eyed first and second graders stepped back into the vibrant world of learning! The School community welcomed these young stars with immense enthusiasm, arranging a heartwarming and engaging welcome program to mark the beginning of their academic journey.

The week was filled with specially curated activities designed to make the transition smooth and enjoyable. The young learners began their week with a delightful 'Welcome Craft' session, where tiny hands worked diligently to create colourful memories of their first day in the new class. This was followed by energetic games that brought smiles to every face. To familiarize our new and returning students with their learning environment, a fun and informative School tour was organized. They explored their classrooms, the library, the play areas, and other key spaces, building a sense of belonging and excitement for the year ahead. Of course, no special day is complete without capturing the memories, so children giggled and posed on the vibrant photo-booths, freezing these moments into snapshots of joy to be cherished forever. The celebrations continued with a 'Welcome Assembly' where all the teachers introduced themselves to the students and shared few inspiring words to motivate them for the exciting academic journey ahead. Melodious rhymes filled the air, encouraging participation and adding to the cheerful atmosphere. The assembly culminated in an energetic Zumba session, getting everyone moving and grooving, setting a positive and active tone for the academic year. This warm and engaging welcome truly embodied the spirit of DPS-GBN, where we believe in nurturing not just academic growth but also the joy of learning and the building of strong community bonds from the very first step. We are thrilled to have our wonderful first and second graders back and look forward to a year filled with discovery, growth, and countless moments of joy!

Every day is Earth Day

"All we have to do is to wake up and change." — Greta Thun berg

In the light of this thought, Grades 1 and 2 learners took a moment to honour the beauty, bounty, and brilliance of our planet. This year's Earth Day celebration was a remarkable showcase of our students' enthusiasm and dedication to caring our Mother Earth. The campus came alive with colours, creativity, and a shared commitment to nurturing Mother Earth on April 22, 2025. Grade 1 students crafted extraordinary photo frames using old carton boxes and dried leaves as a group activity. They learned that waste can be used again in creative ways. Along with this, they also collected fallen leaves from the School's garden and made different patterns, flowers, animals, etc with them as a part of Leaf-pasting activity. While, Grade 2 students made stunning scenery using dry leaves and flowers. These creative activities promoted imagination and environmental awareness, teaching students to appreciate and protect their Mother Earth. Through hands-on experiences, they explored the concept of sustainability and understood the importance of conserving natural resources. The event fostered a sense of responsibility towards the environment, inspiring young minds to adopt eco-friendly habits and make a positive impact on the world. The children were also engaged in thoughtful discussions to reduce the waste, conserve resources, and care for the planet with respect and empathy. This collective promise stood as a powerful reminder that even the smallest actions, when taken with sincerity, can lead to a more sustainable and hopeful tomorrow.

Special Week- Green Footprints

"The best way to predict the future is to create it."

- Peter Drucker

Caring for the planet begins with small, meaningful steps taken early in life. When children understand the value of sustainability, they grow into responsible stewards of the Earth. With this belief, Grades 1 and 2 students of DPS-GBN, embarked on a journey towards a greener, more sustainable Earth through our special week- Green Footprints. The theme, 'Tread Lightly, Live Sustainably' encouraged environmental care and sustainability. Throughout the week, a series of activities were conducted to reinforce this theme. On April 21, 2025, students learned about the 5 R's (Reduce, Reuse, Recycle, Refuse, and Repurpose) and how these practices help to minimize waste as well as its environmental impact. They crafted stunning and vibrant collages using the pictures that illustrated the concept of 5 R's very well. Then, on the second day, they learned about waste segregation and management by segregating the waste materials, which they brought from home and disposing them in different coloured dustbins. To conclude this enriching week, the young environmentalists were also encouraged to conserve water by completing tasks with minimal water usage. Students took a heartfelt pledge to conserve water, reinforcing their commitment to sustainability. Through these initiatives, our young eco-warriors gained valuable insights into reducing pollution and promoting sustainability, taking mindful steps towards a brighter, greener future.

Achievers' Gallery

"Success is the sum of small efforts, repeated day in and day out."

– Robert Collier

We are immensely proud to celebrate the remarkable achievement of our Grade 1 young Olympiad achievers for the academic year 2024-25. These budding scholars have demonstrated exceptional dedication, brilliance, and passion by winning Gold Medals in SOF- International Mathematics Olympiad. Through their hard work and enthusiasm, these little champs have not only excelled but also set an inspiring example for their peers.

Heartiest congratulations to our stars for shining brightly in the field of academics and wish them continued success in the years to come!
