4. SPACE, organized Astronomy Summer Camp 2021 for the students of classes III-V.

Workshop:

Regular online stimulating workshops and webinars were conducted in the month of April, 2021.

SNIPPETS

WORLD EARTH DAY

Environmental Education imparts knowledge about the current situation and future prospects of nature. In order to create awareness among our little learners about saving the mother earth, classes IV to VI of DPS, GBN virtually celebrated the 'World Earth Day' on April 20, 2021.

A myriad of activities were conducted virtually for the students. Colouring pot, planting seeds and providing it love, was the theme of the activity for class IV. Students of class V made paper bags from old newspapers to stress upon the importance of reduce, reuse and recycle wherein the students of class VI did an exceptionally wonderful job by creating their own upcycled items like pencil stands, book covers, plant holders etc. The students really enjoyed these fun-filled and eco-friendly activities. Through these various activities, students emphasized the importance of afforestation, planting of trees and the need for everyone to put together their efforts and get into action, in protecting our environment.

Box Office, Watch and Learn!

"Even though you're growing up, you should never stop having fun."

With the commencement of the new session, to keep the students motivated and energized, DPS, GBN organised a fun activity for Class VI on April 15, 2021- 'Box Office, Watch and Learn!'

To get the young scholars hopped up, the students were quizzed about movie clips involving morals, life lessons, day-to-day attitudes, humour, and other meaningful virtues. Based on the same clips, few questions were then asked from different teams, which sparked great discussions and promoted new perspectives amongst the students. The activity not only redoubled the comprehension of the students but also elevated their confidence, leadership and teamwork. Students were thrilled to be on the winning team while they munched on their snacks. Altogether, the activity was a howling success!

Special Achievements

Mannat Sachdeva of class VI got featured in the TV Commercial of MG Hector Plus 7 seater by Morris Garages India.

Taare Zameen Par- The Next Big Star

“Tell me and I forget. Teach me and I remember. Involve me and I learn.”

With an intention to create a fusion of fun and learning together, a very intriguing activity, Taare Zameen Par-The Next Big Star was organized for the students of class V on April 15, 2021.

During the activity, students exhibited their magnificent talent through singing, dancing and mimicry, and explored new dimensions. This activity gave a wonderful platform to our young and ebullient learners and also allowed them to have myriad of experiences.

Overall, this entire initiative was a great success and provided great rejuvenation and spectacular learning.

Passion Platter- Work Education

As a part of the school's vision to focus on the holistic development of the students, the commencement of the new session began with an establishment of various W.E. clubs. On the first day of the session, students from classes IV-VI explored and experienced an interactive session that stimulated the mind and imagination.

The facilitators apprised the students about the study material, the process of accessing through the software, and easy techniques to calculate the numbers. These clubs are beneficial for the students as they provide them an opportunity to showcase their hidden talents. Moreover, with the help of NEP 2020, which shifts the focus from the traditionally used system of rote-learning to a system based on experiential learning and conceptual understanding, which would help students apply their knowledge in real-world situations. For promoting the same idea, many other W.E. clubs including Non-Fire Cooking, Public Speaking, Aerobics, Personality Grooming, Painting, Calligraphy, etc. were functional after a month of developing an excellent curriculum and engaging & enriching activities for the learners. Facilitators across the globe have made the case for shifting towards a more experiential learning pattern that is more likely to help students succeed in their daily lives as social individuals and similar is the motive of facilitators at DPS, GBN.

'The Best Companion' Activity

"An animal's eyes have the power to speak a great language."

-Martin Buber

To instill the value that 'Pets are humanizing', DPS, GBN organized the activity, 'Animal are a Window to our Soul' on April 15, 2021 for the students of class IV. During the activity, students introduced their pets, stuffed animal toys or their pictures. The activity was conducted on MS Teams and was extremely entertaining in which the students virtually brought their pets; discussed about their eating habits, likes, dislikes and how significant they are for them. Some of them had enunciated their real life experiences that why we should view animals as spiritual creatures that are capable of coherent thought and emotions. At the end of the activity, children picked up a valuable lesson that the relation which we develop with animals is life-long.

The participants received Appreciation Certificate as a token of encouragement.

'World Health Day' 2021

With the ongoing global pandemic, students of DPS, GBN celebrated 'World Health Day' virtually on April 7, 2021. The theme for World Health Day 2021 is, 'Building a Fairer, Healthier World.' In this year of pandemic, WHO aims to spread awareness on achieving a better lifestyle to eliminate health inequalities around the world.

Students of classes IV-VI witnessed a brief presentation during the Class Teacher period which highlighted the importance of maintaining good health and practicing regular physical exercises, students watched a very informative video which made them aware of the importance of good health.

Through an interactive session the teachers sensitized students to inculcate healthy eating habits in order to keep themselves safe during the pandemic. Students of class IV observed the day by preparing a healthy plate focusing on a balanced diet. Students of classes V & VI celebrated the day with great vigor; they participated in a wide array of activities like poster making and slogan writing covering various aspects related to good health on this year's WHO theme, 'Building a Healthier, Fairer World.' These activities were conducted to stress upon the importance of hygiene and health during COVID-19.
