## Show and Tell

'Show and Tell' is an important part of a student's learning and overall development in early childhood years. Taking this thought forward, Daycare conducted a 'Show and Tell' activity on the theme- Transport on February 19, 2021. The children exhibited different means of transport and spoke about them with confidence. Overall, it was a wonderful learning experience for our young dipsites.

## Colouring Competition

"Colours are the smiles of nature" - Leigh Hunt

Art is the best way to trigger a child's imagination. Children can express themselves and their moods with colours. Keeping this in mind, a colouring competition 'Colouring Hands' was organized by Daycare on February 24, 2021 for our upcoming artists. Children coloured a beautiful scenery worksheet with vibrant colours. Each child's creation was a masterpiece as they coloured it with great care. The fun they had is certainly going to add a new inning to their colourful childhood memories.

## Healthy Nachos Salad

“Snack time heals all wounds.”

- Bridger Winegar

Teaching the benefits of healthy eating habits at a young age help the children to maintain a healthy lifestyle throughout their adulthood. This thought was put into action by Nursery teachers who helped children in making a finger licking and tempting ‘Healthy Nachos Salad’ by using colourful fresh veggies along with crispy nachos on February 15, 2021. Children enjoyed mixing the pre-cut veggies and adding the ingredients to the salad. The kids found the snack so tempting that they could not resist licking their fingertips as they decorated their lip-smacking nachos salad. They enjoyed having their crunchy salad and with this activity, one more dish got added to their list of non-fire cooking menu.

## My Favourite Planet Activity & Solar System Craft

*“If the child is not learning the way you are teaching, then you must teach in the way the child learns.”*

-Rita Dunn

Learning anything new with fun activities promote healthy development and critical thinking skills in the children. It allows them to use their senses and encourages exploration and curiosity in them. To inculcate better understanding and knowledge about the Solar system in our little ones, Grade Prep organized ‘My Favourite Planet’ activity and ‘Solar System Craft’ for the young scholars on February 3, 2021. The children used best of their creativity and innovative ideas to dress-up like their favourite planet. They put on red clothes to become Mars, blue for Earth, grey for Mercury, brown for Jupiter, rings on their head to become Saturn and some of them also made models/ cut-outs of their favourite planet. It was mesmerizing to see the zeal with which the young learners participated in this unique activity. The amazing facts and information about these planets, which the little geniuses shared with their teacher left everyone amazed and proud of them.

The level of excitement got too high when the children made hanging solar-system craft with the teacher. Learning the names of the planets, their size, distance from sun, colour, features etc. became so amusing and an everlasting experience for the little ones. It was an enriching session for the children as well as the teachers.

# Annual Class Presentation & Graduation Ceremony

*"A child is like a butterfly in the wind. Some can fly higher than others, but each one flies the best it can."*

-Anonymous

An important event that marked bidding farewell to the previous academic year, Annual Day, was virtually conducted by kids of Nursery and Prep on March 6, 2021. The students enacted on the famous Aesop's Fable - 'Belly and Its Members'.

The children were shimmering in their costumes while performing dance and welcome song. The little artists took our heart away by delivering the dialogues so confidently and putting up a spectacular show. Everyone was thrilled to see the talent our preschoolers have displayed in all the areas- dance, drama and music. The dedication and humongous efforts of the students, parents and teachers were visible during the show. This celebration highlighted our school's continuous success in the area of academics as well as co-curricular activities.

In addition to the Annual Class Presentation, DPS, GBN also organized Graduation Ceremony for the young scholars of Grade Prep as they were promoted to Grade 1. The teachers expressed their love and showered blessings on the young scholars by giving a special message to each child and congratulating them on their impressive achievements. It was a remarkable experience for the mentors, students as well as the parents.
