

Udaan

The Flight of Imagination...

Session 2024- 25

Editorial Board

Editorial

“No man ever steps in the same river twice, for it's not the same river and he's not the same man”

- Heraclitus, Greek Philosopher

Rivers are the perfect metaphor of life- teaching us that life goes on. In our country, however, rivers and water, take a spiritual turn. Apart from being a source of life, a centre of livelihood, a river also becomes the path to self discovery for many people. At DPS, GBN we ensure that our young learners understand the cultural, scientific and economic importance of rivers and the conservation of river water- a shared responsibility for all of us as Indians.

In this edition of our Annual School Magazine- Udaan, we are proud to share the musings and experiences of our Students and other stakeholders on rivers, water and water conservation.

We hope you will enjoy reading these expressions of hope for a better future.

Happy Reading!
Editorial Board

Always In Our Hearts...

Shri Vineet Nayyar, Founder, DPS-GBN

Chairman's Message

BK Chaturvedi
Chairman, The DPS Society

I am happy to learn that DPS Sector 132, Expressway, Gautam Buddh Nagar is publishing the next issue of its Annual Magazine 'Udaan'. It is an important means to apprise and share with the parents and the community at large, what the school is doing in the field of Education for holistic development of the students. My best wishes to the Principal, Faculty and the Students. Compliments to the Editorial Board.

Exploring Sustainable Practices...

Ravi Vira Gupta
Chairman

At DPS GBN, we firmly believe that when the foundation of the mind is built on values like integrity, excellence, and compassion, the seeds of knowledge and character will develop into strong pillars, supporting a fruitful life. I am proud to say that we have exceeded every responsibility entrusted to us, standing united in facing challenges and delivering quality education, and this Annual Magazine beautifully captures these success stories.

This year's theme of water conservation presents a unique opportunity to explore sustainable practices, environmental stewardship, and community responsibility, enabling our students to showcase their creativity and awareness in impactful ways.

The magazine stands as a testament to their dedication and brilliance, and I am confident it will inspire our entire community.

Fostering Awareness and Actionable Solutions...

*Arvind Varma
Vice Chairman*

DPS GBN has always been a beacon of holistic development, where academic rigor meets character building and innovation thrives alongside tradition. We take immense pride in witnessing our students consistently rise to meet every challenge with determination and creativity. Their achievements across various fields continue to bring laurels to our School community, and this Annual Magazine serves as a wonderful chronicle of their remarkable journey.

The theme of water conservation this year provides our students with a platform to address one of the most critical environmental issues of our time, fostering both awareness and actionable solutions.

I congratulate all contributors for their exceptional work and trust that this publication will motivate readers toward positive environmental action.

An Ocean of Collective Brilliance...

Reva Nayyar
Pro Vice Chairperson

Water is the silent miracle of life; it never stops flowing, changing, and sustaining itself. Like water, the students at DPS GBN are resilient, creative, and purposeful; they shape their own paths while improving the world. Each concept, accomplishment, and introspection come together like drops to form an ocean of collective brilliance, and this edition of the magazine is a tribute to that spirit.

I express my sincere gratitude to the Principal, teachers, and students for this admirable endeavor. I envision that DPS GBN's creative and educational traditions will continue to flourish in the years to come.

Ideas for Water Harvesting...

Dr. Sudipta Ghose

Member, SMC

YouTube Channel 'Everyday Life and Science'

Water is the elixir of life. Our quest for potable water has led us to pump out so much water from underground aquifers that we have tilted the earth's axis ! Unbelievable, but true. The need of the hour is rainwater harvesting and re-cycling of water.

I am delighted that water conservation is the theme of this year's Annual School Magazine.

Heartfelt Congratulations to the Principal, Faculty and Students for their sustained efforts in working for this year's theme and this wonderful issue of Udaan in hand.

Wishing continued success and inspiration.

Conservation is Key...

*J L Bajaj
Member, SMC*

I am happy to see that the School is releasing the next edition of its Annual Magazine 'Udaan' on the theme 'Water'. This magazine beautifully captures the views and insights of students on the importance of water and the various steps required to conserve and protect this vital resource. I extend my best wishes to the entire team. Congratulations to the Editorial Board for their hard work and dedication in compiling this magazine.

Inculcating Inventiveness in Learners...

Vineeta Nayyar
Member, SMC

It is with immense pleasure and joy that I congratulate everyone on the release of the next edition of the Annual Magazine 'Udaan'. It is a reflection of the passion, determination, creativity, talent and exceptional achievements of our Students. The magazine exhibits outstanding display of inventiveness on the theme 'Water' put together by the students. The ingenuity and the insights of the students are truly remarkable.

I wish the School to continue to excel and carry on its tradition of great work!

Understanding Water Saving Practices...

Sudhir Kumar
Member, SMC

I'm thrilled to see the young students thrive, explore their passions and become empathetic leaders under the guidance of the dedicated educators. 'Udaan' gives opportunities to the young learners to unlock their potential, showcase their creativity and shine bright! The theme for this edition of Udaan is a very interesting read and promotes awareness on water-saving practices. I congratulate the Principal, dedicated faculty and the talented Students for their continuous efforts and their outstanding work. All the best!

Water- Both Timeless and Urgent...

Veena Khosla
Member, SMC

It gives me immense pleasure to pen down my thoughts for this year's edition of the Annual School magazine 'Udaan'. This Magazine is not just a reflection of the Students' creativity and expression, but also a mirror of the values and ethics that shape their outlook on life.

The theme for this edition, Water, is both timeless and urgent. Water teaches us resilience, adaptability, and continuity—values that are deeply embedded in our ethos at DPS GBN. I am heartened to see the young learners channel their creativity and intellect into exploring this theme through diverse expressions in the pages of the Magazine. The Student's voices remind us that safeguarding resources is not merely an obligation, but a way of honouring life itself.

I congratulate the Principal, Students and the Teachers for bringing together such a meaningful compilation. May it inspire us all to preserve the purity of water and, with it, the future of generations to come.

Be Resilient in Spirit...

Shivanand

Director, Finance and Administration

Member, SMC

At DPS GBN, our guiding principles—Integrity, Excellence, Compassion and Responsibility—form the very foundation upon which our Students grow. Water adapts flows, sustains and purifies; in the same way, our Ethos encourage Students to remain adaptable in the face of challenges, resilient in spirit and compassionate in action.

This year's theme, Water, beautifully mirrors the essence of our School Community. Just as every drop contributes to the vastness of an ocean, each Student adds meaning, depth and brilliance to the collective identity of the Institution.

I commend the Principal, Teachers and the Students for curating this inspiring edition and wish every reader an enriching experience.

Water- the Essence of Life...

Supriti Chauhan
Principal

At DPS, GBN, our guiding ethos “Service Before Self”, forms the cornerstone of every endeavour we undertake. These values not only shape the culture of our School but also inspire each Student to rise beyond Academics, embracing compassion, responsibility, and resilience. The Annual School magazine ‘Udaan’ is a reflection of this very spirit.

This year’s magazine, centred on the theme ‘Water’, beautifully mirrors the essence of life itself. Our Students have not only expressed their imagination but also deepened their understanding of its significance in shaping civilizations, ecosystems, and the very future of our planet. Each article, poem and sketch resonates with the voices of our young learners who are continuously exploring, questioning, and discovering.

As you turn these pages, I hope you will feel the same sense of pride and inspiration that I do, witnessing how every small effort comes together to create something truly remarkable. I extend my heartfelt appreciation to the dedicated Teachers, supportive Parents, and above all, our Students, who have contributed to this collective journey. Let this magazine be a gentle ripple- spreading awareness, fostering thoughts, and encouraging meaningful action.

DPS, GAUTAM BUDDH NAGAR, CELEBRATES WORLD LAUGHTER DAY

Delhi Public School, Gautam Buddha Nagar (DPS-GBN), celebrated World Laughter Day with zeal.

The day took the school by storm as students unleashed their infectious laughter, turning the campus into a laughter-filled paradise.

During the celebration, students were engaged in a variety of interesting activities that brought smiles to their faces. They made laughing emoticons and face masks with funny expressions. That activity encouraged creativity and allowed students to express themselves through laughter. It broke the mold by embracing laughter as an essential part of education. The day was the ultimate showcase of how the school radiates happiness!

At DPS-GBN, laughter and happiness are the secret ingredients that make every day brighter!

Students made laughing emoticons & face masks with funny expressions.

DPS, Gautam Buddha Nagar, hosts scholar badge ceremony to celebrate students' academic excellence

In recognition of its students' dedication and talents, Delhi Public School (DPS), Gautam Buddha Nagar, proudly hosted highly-anticipated scholar badge ceremony for Classes 5-7 for the academic session 2023-24.

The ceremony began with a spirited rendition of the national anthem, followed by students, dressed in their finest attire, delivering exhilarating performances that set a vibrant tone for the audience. Scholars were honoured with awards and badges by the

school principal Supriti Chauhan and coordinators. Amazing photographs captured those memorable moments. The star performers captivated the audience with their choir and dance performances, followed by a short skit and a recitation of a poem.

In her address, the principal praised the students for their dedication and encouraged them to continue striving for excellence.

The principal emphasized the significance of maintaining a balance between academics and extracurricular activities, highlighting how both contribute to the holistic development of students.

The ceremony not only recognised the achievements of the scholars but also inspired all students to reflect on how well they are fulfilling the school's vision and their personal goals. The event left a lasting impression on all those who attended, celebrating the spirit of excellence that defines DPS GBN.

Scholars were honoured with awards and badges by principal Supriti Chauhan & the coordinators

Bookworm Bonanza: Delhi Public School, Gautam Buddha Nagar

The Bookworm Bonanza, a vibrant book fair of Delhi Public School, Gautam Buddha Nagar, was an initiative led by ten commerce students from grade XI. The fair benefitted from the unwavering support of Principal, Supriti Chauhan and was made possible through an opportunity presented by School's School Internship Program. The entire event was planned in accordance with DPS GBN's commitment to the Sustainable Development Goals. With focus on catering to all students from Nursery to Grade 12, and featuring an extensive collection of books across various genres like Self-help, Fantasy, Comedy, Informative, etc. Another key highlight of the Bookworm Bonanza was the active involvement of the student body, promoting a love for reading and learning. Creative activities such as bookmaking, poster-making contests were organized for students in grades 1-8, with the resulting artwork displayed and sold at the fair. The entire decor was hence student-made and the items such as balloons and thermocoles, which are reusable and harm the environment, were restricted. For young learners that visited the fair the fun attraction was Bookworm Bonanza mascot and The Dog man.

Happy Teacher's Day THE TIMES OF INDIA

Your magic shows us the way

On this special day, I tip my hat to the magicians who turn textbooks into treasures and classrooms into adventures, to my teachers—my Gurus. In Sanskrit, 'Guru' means 'one who dispels darkness', and you do just that by illuminating our minds with wisdom and our hearts with compassion. Your wisdom is the glow that holds our learning together, and your kindness is the compass that guides us through life's challenges. As they say, 'Teaching is the profession that teaches all other professions.' Thank you for being the spark that lights our curiosity and the heroes who make learning a joy! Happy Teachers' Day!

MANYA SINGHAL, class 10-C, DPS, Gautam Buddha Nagar

Mothers are the first teachers

The profession that creates all other professions is teaching. It's not just about granting knowledge but also, shaping the minds with ethics and values. My mother is always the first teacher to correct me, teach me, make me realize where I went wrong, and help me get through everything. I am thankful to her for making me the person I am today. It's all her, who taught me such great things in life. Happy Teachers' Day!

YRISHI CHAKRA, class 8-C, DPS, Gautam Buddha Nagar

Awards and Accolades 2024-25

- DPS, GBN was recognized among top national schools in the TIMES NOW Education Survey and Conclave 2024
 - The GREEN SCHOOL AWARD 2024, given to us for the fourth time in continuation by the Center for Science and Environment, is a testament to our School's commitment to sustainability and environmental responsibility
 - The School has secured 3rd Position in National Green School Ranking 2024
 - Class X and XII Board Achievers were felicitated by Shri Laxmi Singh, Commissioner of Police, GB Nagar, at the 'High Rise Heroes Award for Academic Achiever 2024' organised by Apartment Times in June 2024.
 - Amar Ujala awarded 'Best Teacher Award 2024' to Ms Renu Maurya
 - Commerce Teachers Foundation felicitated Ms Rati Dhawan for Business Studies and Ms Nidhi Marwah for Economics at the ceremony "Abhinandan 2024" held at India International Centre, New Delhi on September 08, 2024.
 - At the IIHM's Teacher's Day Award Ceremony 2024, Ms Nidhi Jaggi (Senior School Faculty) was awarded with the 'Teacher Par Excellence' award.

Alumni Speak (Batch of 2024-25)

AKSHAT SINGH

Life after school was not very easy for me in the beginning. I had studied for almost 13 years in the same school, at the same place, so it was difficult to adjust to a completely new environment. Leaving behind old friends and familiar teachers made me feel nervous and homesick at first.

With time, I faced many challenges. I met new people from different backgrounds, and slowly they became friends. Sharing experiences with them gave me confidence and strength. I have realized that even though change is hard, it also gives us a chance to improve ourselves and see life in a new way!!

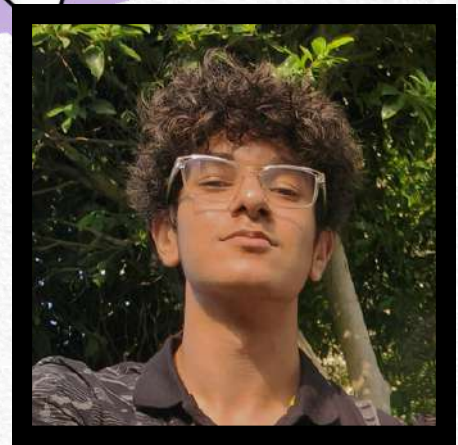

AVIRAL MISHRA

This newfound air is light, a sweet release,
But echoes of old laughter find their cease.

The strangers here are bright, but not the same-
No shared old history to speak my name.

This freedom rings, a slightly hollow tone,
For a home was built in friends I've ever known.

AHAN GOEL

Life after school marks the beginning of a life full of responsibility and self-control. It is a phase where one steps into higher education, careers, and real-world challenges. School was like a place of comfort for me; it was a place where each and every student's care was taken, unlike the real world. The real world poses a lot of different challenges, especially the one in which you are required to stay away from your loved ones and family. So, to conclude, I would just say that enjoy school life as much as you can, study well, and make a close bond with your teachers as well because life outside of it is going to be remarkably different

Believe
and
Achieve

Life After School (Batch Of 2024-25)

KYRA GUPTA

“Kya jaldi jaldi bade ho gaye na hum”, is what life after school feels like. It is exciting, confusing and bittersweet. College life feels exciting, navigating adulthood is confusing and getting used to the fact that you and your friends live in different time zones now is bittersweet.

Life after school is overwhelming, exhilarating and a hundred other feelings at the same time. But in hindsight, those psychology class tests don't feel as scary anymore now that I have to submit three psychology assignments in a week.

As we move forward, we carry the lessons, laughter, and memories of our time in school, a place where we've blossomed and grown.

SAARA AAMIR HASAN

Life after school at NLIU has been a major shift. Independence and responsibility have replaced the comfort of family and school.

Classes are demanding, but so are the societies, fests, and co-curricular.

Balancing academics with everything else feels like the first real test of stepping into adulthood.

GAURAVIT PATHAK

Crossing the Threshold

School days fade like morning mist,
Goodbyes sealed with a final twist.

Caps in air, hearts full of fire,
Eyes set high, dreams climbing higher.

New faces, halls, a world unknown,
A chance to build a self your own.

Freedom calls with thrilling voice,
In every step, a daring choice.

From uniforms to wild new ways,
Life begins in brighter days.

College waits — the future's door,
Adventure, learning, and so much more.

SHREYA SINGH

Life after school truly felt like a roller coaster ride. At first, I was extremely nervous and confused about which college I would get into and how I would adjust, but getting admission into St. Xavier's College, Mumbai, came as both a surprise and a relief. The thought of moving to a completely new place away from my family, friends, and school made me anxious, and I knew I would miss them deeply. However, as the days in college began, I slowly started embracing the beauty of Mumbai, its energy, and its opportunities

On a New Journey (Batch of 2024-25)

DHARATBEER SINGH BHATIA

Life after school felt empty at first, exams were over and boredom had set in. Meeting friends brought joy, laughter and unforgettable moments flooding back. But as college began, I missed those carefree days and the people who made them special, cherishing memories while adjusting to a new chapter. You never truly realise that you are in the “good old days”, and once those days have passed you wish you could go back.

VINOD KUMAR NATH

Life After School – A New Beginning
Life after school feels like stepping out of a cozy home into a vast, colorful world. The classrooms, laughter, and friendships stay with us like stars that never fade. Yet, the world ahead sparkles with new beginnings—where dreams get wings, responsibilities guide us, and every step feels like writing our own story.
“Every ending is just the beginning of a brighter story.”

SAMAIRA SACHDEVA

Life after school has been a journey of growth, independence, and discovery. From adjusting to college life to exploring career opportunities, every step has taught me resilience and responsibility. The values and foundation built at DPS GBN continue to guide me as I chase my goals with confidence

KASHVEE VERMA

Buildings have changed but undoubtedly the support of teachers remains the same. We are in college, sticking to the choices we have made to carve out a prosperous future but the perseverance and discipline has been instilled from those classrooms. These lessons continue to shape my journey as I experience challenges, excitement and new experiences in college.

Embodying the School Motto 'SERVICE BEFORE SELF'

- **Interact Club members took part in Meet and Greet event at the Okhla Bird Sanctuary on April 14, 2024**
- **Interact Club, in collaboration with District 3012, recently organized a virtual webinar on the topic "Thriving Minds – A Journey to Mental Wellness"**
- **Interact Club Members visited Supertech Capetown Society, Sector 74, Noida on October 6, 2024 under their project 'Shakti' and presented a dance performance on Devi Ma, a Street Play and a band performance**
- **The Interact Club of the school organized Blood Donation, Dental Check-up and Thalassemia Awareness Camp on December 7, 2024**
- **As an initiative of the School's Interact Club, the Jaipur Foot Camp bus was set up in the School and artificial limbs were provided to those from the marginalised sections on January 22, 2025.**
- **Surkriti Band of the NAB (National Association of the Blind), and the School's Orchestra- Crescendo created a memorable symphony on January 22, 2025.**

It is in Giving that we Receive...

Shutterbugs in the Making...

This striking photograph beautifully blends the calm of a golden evening sky with the everyday structures of urban life.

Akshika Srivastava XI-F

This captivating image of a plains cupid butterfly (*Luthrodes pandava*) resting on a leaf highlights the delicate beauty often overlooked in our natural surroundings.

Karthikeyan Sasi XI-F

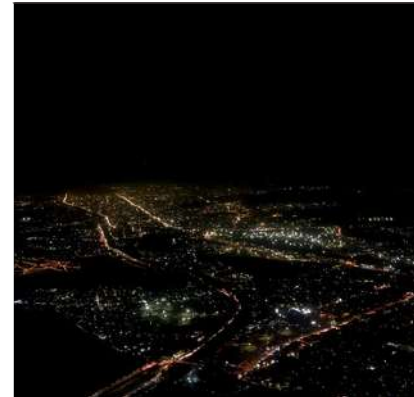

The moon glows like a secret, mountains breathe in silence, raindrops cling with delicate grace. Stormy skies loom over restless streets, while flowers bloom in shy defiance.

Tanishk Singh XI-G

As the moon glows upon us, the city brightens up with lights which make us want to wish the night never dies.

Vipasna Dhar XI-D

Not just a landscape, but a living canvas of light, motion, and untold stories written in tranquil silence.

Shriya Gupta XI-E

When the Ink Flows Like Water...

Flow of Innocence

A river begins as a silver thread,
Leaping from mountains, eager to spread.
Childhood too starts with laughter and play,
Bright as the dawn of a gentle day.
The river dances on pebbled ground,
Singing in whispers, a tinkling sound.
A child runs free with innocent eyes,
Dreaming of castles beneath the skies.
Curves and turns, the river will take,
Learning from rocks, from every mistake.
So does a child, through stumble and fall,
Finding the courage to stand up tall.
The river widens, steady and deep,
Guarding its secrets, treasures to keep.
Childhood grows older, thoughtful, still,
Yet brims with wonder, passion, and will.
Both move forward, never the same,
Guided by sunlight, by storm, by rain.
River and childhood - journeys that flow,
Shaping the life we come to know.

Shayaan Ali Khan
XI C

The Flow of Life

If rain is the song of the earth,
then rivers are the albums,
containing a liquid so precious to us.
It is essential for every human.
It fuels the life of the universe;
from mountains to valleys they flow,
through the land they traverse,
helping all the roots to grow.
Without their path, all life would part;
with rivers, beats the planet's heart.

Saiyed Arifeen
X -B

Walking River

The river in the woods
That once stretched to the sun
Where prey and predator alike
Came with their little ones
To quench their thirst
At dusk and dawn
Now only walks
Where it used to run
The green wood lit on a golden fire,
Creatures fled—
thirsty, homeless,
scattering wild,
The walking river
Slower every year
Sayesha Bhayana
XI - B

Student Musings...

Where the Life Flows

Water is life and Rivers are its endless journey flowing from mountains to seas, bringing life wherever they flow. They shine like silver under the sunshine and speak softly as they move along the lands. Beyond their beauty, Rivers sustain lives of living, fields bloom, animals gather, farmers depend on its water for crops and children splash joyfully while their families collect water. A river teaches us patience as it moves yet it shapes the land with its immense power. So, water is more than just a need for humans — it is a gift from nature carrying life wherever it flows.

Samriddhi Lal

IX-C

Water and Rivers - Lifelines of the Earth

Water is the most precious gift of nature and the very basis of life. Although our planet is covered mostly with water, only a tiny fraction is fresh and suitable for human use. Among all sources, rivers hold the greatest importance. Since ancient times, civilizations like the Nile, Indus and Ganga have grown and flourished on riverbanks. However, today rivers are in great danger due to pollution, deforestation, excessive use and the construction of large dams. Every individual must play a role in conserving water and protecting rivers.

Wasser – Geschenk des Lebens

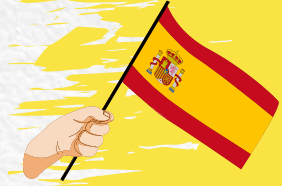

Wasser ist sehr wichtig für unser Leben. Wir trinken Wasser jeden Tag. Es hilft uns, gesund zu bleiben. Wir nutzen Wasser zum Kochen, Waschen und Putzen. Bauern brauchen Wasser für Pflanzen. Ohne Wasser gibt es kein Leben. Darum müssen wir Wasser sparen und schützen. Wasser ist klar, sauber, kalt und ruhig. Es ist schön und groß, tief und stark. Wasser ist frei, wichtig, wertvoll, freundlich, hell, dunkel und wunderbar

Arav Singh
IX-I

Wasser Und Seine Verwendungen

Wir haben so viele Flüsse, Seen und Bäche in Indien, die unsere Bedürfnisse erfüllen. Besonders brauchen wir Wasser, um zu trinken. Außerdem ist das Wasser der Flüsse sehr nützlich für viele Menschen, die besonders in den Dörfern wohnen. Viele Leute, die in den Wäldern wohnen, benutzen das Wasser der Bäche zum Trinken. Die Stadtleute benutzen täglich Wasser zum Baden, Schwimmen und Waschen. Deshalb ist das Wasser wichtig, um uns bei unseren Tätigkeiten zu helfen.

Des Mots Qui Inspirent, Des Idées Qui Rayonnent...

Le Trésor Incommensurable: L'eau

Des milliers ont vécu sans amour mais aucun sans eau,
La richesse précieuse, trouve-t-on partout ?
Plus précieuse que le diamant et l'or,
Est exploitée tous les jours.
Dit le proverbe : Chaque goutte compte.
Mais attend-on un génie pour sauver le monde ?
De la cuisine au nettoyage, de l'agriculture à l'hygiène,
tout en dépend,
Les gaspillages industriels, et domestiques l'exploitent,
cependant.
Agissez, bougez et évitez son gaspillage,
Parce que sa valeur est sans âge.
C'est bien dire, agir,
Économiser l'eau, c'est semer l'avenir.

Siya Chaudhry
X-C

L'eau- une ressource vitale

L'eau est très importante pour la vie. Nous devons la protéger. Chaque goutte compte, car sans eau, les plantes, les animaux et nous ne pouvons pas vivre. Fermer le robinet, prendre de petites douches et recycler l'eau sont des gestes simples. Sauver l'eau, c'est sauver notre futur.

Gauri Sharma
IX-A

生徒たちは水について考える。

みずは いのちの もとです。にんげんも どうぶつも しょくぶつも、みずがなければ いきることが できません。せかいの ひとびとが あんしんして くらすためには、きれいな みずが ひつようです。しかし、ちきゅうじょうには じゅうぶんな みずが ない くにも あります。だから、わたしたちは みずを たいせつに し、むだに しないように こころがなければ なりません。

Water is the source of life. Humans, animals, and plants cannot live without it. For people around the world to live safely, clean water is necessary. However, there are countries on Earth where there is not enough water. That is why we must value water and avoid wasting it.

Ansh Prajapati
IX - J

せかいには まだきれいな みずを じゅうに つかえない ひとが おおく います。かわや みずうみを よごすことは、かれらの せいかつを さらに くるしく します。わたしたちは みずを よごさないように ちゅういし、どうぶつや しょくぶつの せいめいを まもらなければ なりません。

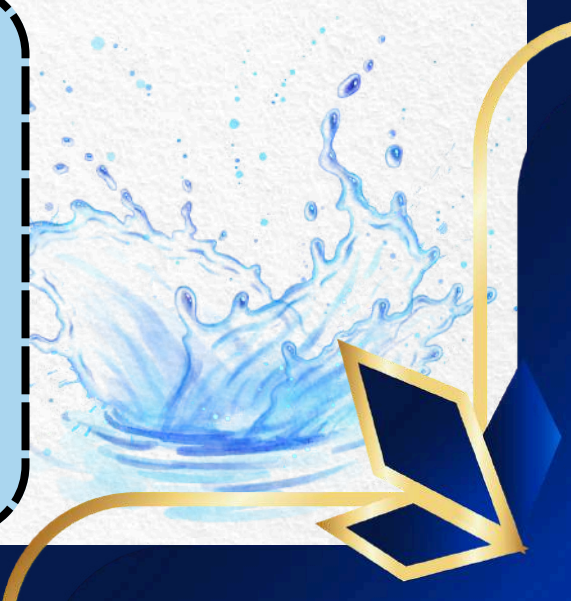

There are still many people in the world who do not have access to clean water. Polluting rivers and lakes makes their lives even harder. We must take care not to pollute water and protect the lives of animals and plants.

Hridyansh Arora
IX - J

みずは むげんでは ありません。にちじょうせいかつで シャワーの じかんを みじかくしたり、みずを だしっぱなしに しないようにしたりする ことが たいせつです。ちいさな こうどうが あつまり、ちきゅうを まもる おおきな ちからに なります。

Water is not unlimited. In daily life, it is important to take shorter showers and not leave the water running. Small actions add up and become a great force to protect the Earth.

Naisha Das
IX - J

Write Right...

The Generosity of Rivers...

The rivers that now through our country pass,
Which were the pride of the nation's rich past,
Are presently in no good condition to ease
Our water scarcity or fulfil basic needs
Due to the trash that common people threw
And the daily waste industries carelessly spew.

Every bath, every hand-wash, every glass
Of drinking water, any washing task,
Every utensil cleaned, and cold showers,
And other daily activities of ours
Will become impossible to do, of course,
Unless we struggle harder to conserve the water resource.

We truly fail to realise today
The lack of a price to pay
By us back to the rivers in exchange
For the generous water, which a wide range
Of our needs fulfils, except the simple favour
To not kill the very generous giver.

Shiven Mathur
IX-I

The History of Rivers

It's fascinating to see how rivers, which we often take for granted, are so much more than just flowing water. They are the silent storytellers of our land. In Indian mythology, for instance, we have the poignant tale of the river Yamuna and her twin brother Yama, the God of Death. Separated by their duties, Yamuna, as a river on Earth, deeply missed her brother. When Yama finally visited, her joy and love were so profound that he blessed the day in her honor as Bhaidooj. This story beautifully illustrates how our lives are tied to rivers in unexpected ways. For millennia, civilizations have blossomed on their banks, drawing sustenance for drinking, farming, and transport. They are the lifelines that have nurtured societies and continue to support our daily existence in countless ways. For our children, learning about these vital waterways is more than a lesson in geography. It is about understanding our heritage, our dependence on the natural world, and the critical responsibility we have to protect and preserve these precious resources for the generations to come, ensuring a healthy and prosperous future.

Poetry and More...

Undaunted She Flows

A journey she was sent from the Heaven above
A beauty, she creates simply by rippling
A life, she breathes all across the valleys and
plains
A perseverance, she exhibits in meandering
around hurdles
A purpose, she serves as she merges in the ocean
A lesson, she teaches of fulfilling one's existence.

The River

The river moves with gentle sound,
Winding slowly all around.
It sparkles bright beneath the sun,
Always moving, never done.
It helps the grass and flowers grow,
And carries the story as it flows.
I watch it travel, free and clear,
Bringing peace when it is near.

Samina Zaidi

कुछ कही कुछ अनकही...

जल बचाओ, जीवन सजाओ

जल बचाओ, जीवन सजाओ
जल है जीवन, जल है प्यार,
बिन इसके सूना संसार।
नदियाँ, झीलें, बूँदें प्यारी,
इनसे ही है दुनिया सारी।
हर बूँद को समझो धन,
जल बचाना है अपनापन।
सूक्ष्म सिंचाई, संचयन करें,
धरती माँ को हरा करें।
बच्चों को दें यही संदेश, जल बचाना है विशेष।
शिक्षक बनकर राह दिखाएँ, हर मन में चेतना जगाएँ।
आज बचाएँ जल की धार,
कल खिलेगा जीवन साकार।
जल बचाओ, जीवन सजाओ,
हर बूँद से आशा जगाओ।

हिंदी विभागाध्यक्ष
चारु सहाय

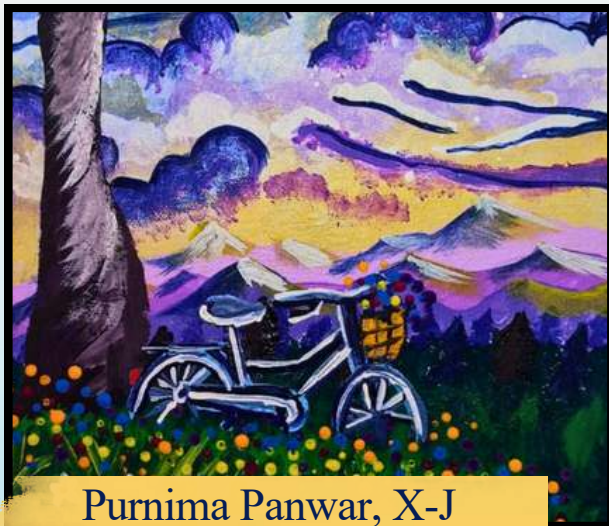

जल तथा जल संरक्षण

जल हमारे जीवन का एक विशेष आधार है परंतु उसकी कमी आज गंभीर समस्या बन गई है। पृथ्वी पर उपस्थित जल बहुत सीमित है जबकि जनसंख्या वृद्धि तथा प्रदूषण से जल सूखते जा रहे हैं अगर हम जल संरक्षण पर ध्यान न देकर जल आपूर्ति को समाप्त करने लगे तो भविष्य में दुनिया को भारी संकट झेलना पड़ेगा। हमें नालों को बंद रखना, वर्षा जल का इस्तेमाल करना और अधिक वृक्षारोपण करना चाहिए। पानी की हर बूँद महत्वपूर्ण है। चलो हम सब मिलकर संकल्प ले, कि जल ही जीवन है, इसे बचाना हमारा कर्तव्य है। जल संरक्षण के प्रति हम सब का जागरूक होना अत्यंत जरूरी है ताकि आने वाली पीढ़ी को हम एक उज्ज्वल भविष्य दे सकें।

छात्रों की कलम से...

जल ही जीवन

इसरो दुढ़े, नासा ढूँढे,
दुढ़ रहा जग सारा।

जल जीवन है, दुर्लभ है गर,
व्यर्थ न करना, एक भी कण।

मेघ जो बरसे, धरा हरी हो जाए,
मुझको भी रखे स्वस्थ व सबल।

जल पिए तो जीवन जीते,

जल से सब सुख पाते हैं।

जल दुर्लभ है, इसे बचाओ,
बूँद-बूँद को मत बहाओ।

संभालो इसे, वरना पछताओ,
जल ही जीवन - यही सिखाओ

शब्द गौरव
छठी ई

कोई रंग नहीं जिसका,

हर रंग में ढलता है।

चलना पानी की तरह,

पानी कहाँ रुकता है।

हमें पानी की तरह जीवन शैली अपनानी
चाहिए।

पानी हर परिस्थिति में खुद को ढाल लेता है,
और स्थिर होने का लगातार प्रयास करता है।

Penning Perspectives...

Water is the most important gift of nature.
We use it for drinking, cooking, farming,
cleaning and many other needs.
Without water, life cannot exist. But today
water is being wasted everywhere.
We must use it carefully and conserve every
drop to secure our future.

Aaratrika Mittal
V -A

Water: Our Future, Our Responsibility
Water is the very lifeline of India, yet we
recklessly squander it. Polluted rivers like the
Yamuna lament our negligence, while parched
villages endure droughts and bustling cities
confront catastrophic floods in Uttarakhand and
Himachal. Nature compels us to awaken—by
conserving, rejuvenating, and harvesting water.
Every precious drop preserved today safeguards
humanity's destiny tomorrow.

Divena Ahuja
V-B

Water, water, everywhere,
Essential for life, beyond compare.
We drink it, wash with glee,
Plants grow strong, thanks to thee.
Every drop is precious and fine,
Let's conserve it, all the time.
Water's gift, we must adore,
Use it wisely, forevermore!

Rishit Dang
V-C

Water is the essence of life, a precious
resource that connects us all. From the vast
oceans to the single drop that quenches our
thirst, it sustains every living thing on Earth.
It's the rain that nourishes our crops, the
rivers that carve landscapes, and the silent
flow that powers our homes. But with this
gift comes a great responsibility. The way we
use and conserve water will shape the future
for generations to come.

Shayan Hassan
V-B

Water - the very foundation of life. Without it,
our world would be a barren wasteland. It's the
source of life, the force that drives our planet's
ecosystems and the essence of human
existence. From quenching our thirst to
powering industries, water's role is dynamic
and vital. It is our duty to cherish and conserve
this precious resource for future generations.

Anisha Gupta
VII-A

Water – The Life of Earth

Water gives life to people and trees,
It's in rivers, oceans, rain, and seas.
We drink, we cook, we clean each day,
It helps our crops and keeps us okay.
Animals need it, plants need too,
Save water always—it cares for you.

ज्ञान की रोशनी...

मेरा रास्ता वही है
जहाँ से नदी बही है
कल कल करती
झर झर गिरती
मेरी कहानी अभी अनकही है।

जो शिखर से उतरती
और जटाओं में सजती
में गौमुख से होते हुए
अपना रास्ता नापती।

है पथरों पे भी निशान मेरे
जो लहरों पे इतराती मैं
इठलाती, बलखाती
अपना रास्ता खुद बनाती मैं।

मैं गर्जन हूँ, आह्वान हूँ
मैं थिरकन हूँ, निराकार हूँ
मुझमें समाती है देश प्रदेश की सभ्यता,
क्योंकि मैं निरंकार हूँ।

किसी रोज किनारे पे बैठना ए मनुष्य।
तुझे दिखाई देगी मेरी तुष्य
अभी और रास्ते नापने हैं
मुझपे लगाना न कोई अंकुश।

अनीशा श्याम
शिक्षिका

जीवन में शक्ति का संचार, पानी है जीवन
का आधार,
प्यास बुझाए, स्फूर्ति लाए, सबको भाये, साथ ले
आए,
प्रकृति में सुंदरता का संचार, पानी है जीवन का
आधार,
नदियाँ बहती, नहरें बहती, तब लहरें है कल
कल कहती, जीवन में जीवंत संचार, पानी है
जीवन का आधार,
सागर में भी, झीलों में भी, तालाब में भी और
हम में भी, पानी ही रहता, पानी ही बहता
कुछ ना कहकर भी सबकुछ है कहता,
मौसम में भी मौसम का संचार, पानी है जीवन का
आधार,
गर्मी में भी हो, सर्दी में भी हो, धरतीमें भी हो ,
अंबर में भी हो,
जीवों में जीवन का संचार, पानी है जीवन का
आधार ।

Educator's Echoes...

Water sparkles, fresh and bright,
Nature's blessing, pure delight.
It feeds our fields, it heals our thirst,
Without its touch, life would be cursed.

From flowing streams to oceans wide,
In every drop, all beings hide.
Yet careless hands waste it away,
And darken Earth with grief each day.

So guard each drop, both small and rare,
Protect it well with love and care.
For water is life, our greatest treasure,
Save it wisely, in rightful measure.

Renu Maurya
Faculty Member

Approximately 71% of Earth is covered with water as oceans and yet only 1% is drinkable. This makes water as most precious resource and should be conserved. Drinking water is crucial for all living things including humans, animals and plants. To be able to live and to ensure that usable water is available for future generations, we need to adopt simple practices like avoiding wastage, fixing leaks, using water-efficient appliances, collecting rainwater etc. Everyone can contribute in their own way by being careful in their own consumption and educating others about the importance of preserving water.

Sonali Dutta
Faculty Member

Megha Mehra
P/O Reyansh
Mehra (V-F)

Water is nature's most valuable gift. It sustains life, quenches thirst and nurtures the earth. Yet, this vital resource is under major threat because of overuse and pollution. Protecting this priceless resource is not just a responsibility but a necessity for the survival of future generations. Simple actions like fixing leaks, turning off taps, reusing water, and harvesting rain can help preserve this priceless gift of nature.

Parent Corner...

Ekta Singh
P/O Advika
Abhishek (VII-B)

Water is Life

After rain, a small puddle gleams,
Drops fall gently like soft daydreams.
Water fills my glass, cool and sweet,
Helps the plants grow and cools my feet.
Every drop counts, don't let it slip-
Water is life, so hold it in your grip.

Neeru Kapoor
P/O Ruhaan
Kapoor (VII-C)

Water conservation means using water wisely and not wasting it. It is important because we need clean water to drink, cook, and grow food. Many places in the world don't have enough water, so we should save it by turning off taps when not in use, fixing leaks, and using water-efficient appliances. Every drop counts! If we all do our part, we can protect this valuable resource for the future.

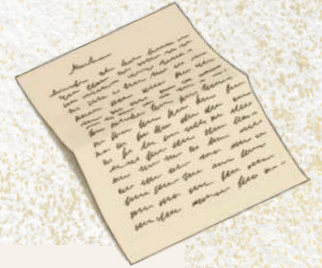

Parent Corner...

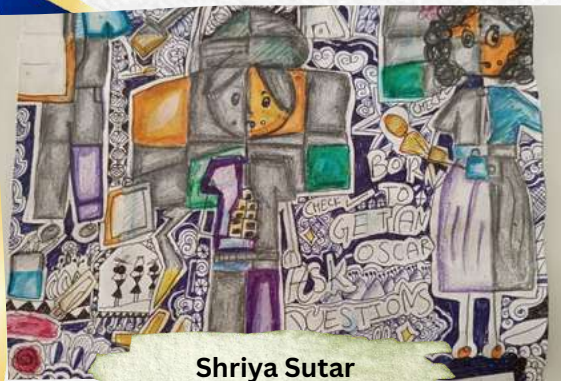

Pranshu Gupta
P/O Anisha Gupta
(VII - A)

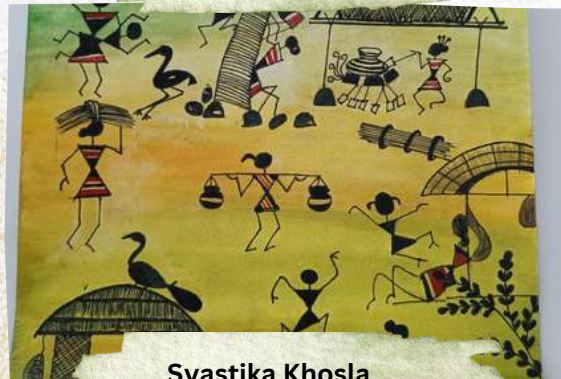

Water, the lifeblood of our planet, is a treasure we can't afford to waste. It's the source of life, nourishing our bodies, crops, and ecosystems. Let's make a conscious effort to conserve every precious drop, ensuring a brighter future for the world we call home.

Jal Hai Toh Kal Hai...

Water is the basis of life!

Water is the basis of life. Life exists on Earth because it has water. One can survive without food for days but not without water. Fresh water is depleting fast due to climate change. Yet no one realizes its importance. We can make a difference by conserving water and motivating others to do the same. Let's make every effort to save water because really 'Jal Hai To Kal Hai', without water there is no tomorrow.

Avyukt Jain
IV - A

Every Drop Deserves Respect

Water and water conservation,
Let's make one resolution,
For the Earth and its water
Climate change is making it hotter!
We talk about water day and night,
but do you understand its plight?
We keep wasting and polluting,
Do you understand what you are doing?
Let's save water and become heroes
Or Earth's life will be in zeroes!

Hans Satsangi
IV - E

Water

Rivers Ganga, Yamuna cry,
Plastic and foam just float by.
Drip, drip, drip — oh don't you see?
No water means no life
Not for everyone and not for me!
From cooking, brushing, every day,
Water helps in every way.
So dear friends, let's take a stand,
Save each drop with our heart and hand!

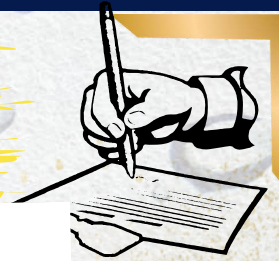

Vaibhavi Tripathi
IV - D

Why is water important ?

Water is vital for all living beings to maintain life on Earth. Water helps humans to stay hydrated and to fight diseases. To ensure its availability we must practice water conservation that means using less water and not wasting it. That includes habits, actions and technology to make sure water lasts for every one of us. Rainwater harvesting is an effective way to collect and reuse water. Small actions by each of us can solve big problems of water scarcity. If we start today we can ensure a better tomorrow for everyone.

Adhira Dwivedi
IV - B

Water- The Lifeline of Humans...

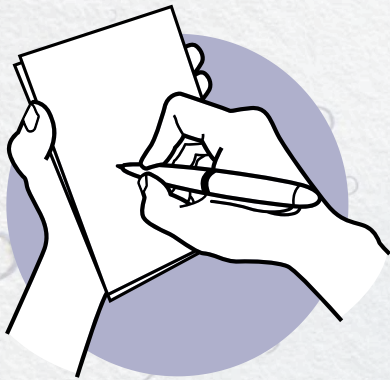

The Magic of Water: Why do we need to save it ?

Water is super important for us. Water is life! Without water, we wouldn't be able to survive. Our bodies need water to work properly. We use water to grow food, to make electricity, and even to have fun in the pool or beach. We can do many simple things at home to save water like harvest rainwater, water plants wisely etc. Every Drop Counts! We can all make a difference by being mindful of our water usage. Let's do our part to conserve water and keep our planet healthy!

So, what are you waiting for? Start saving water today! Tell your friends and family about the importance of water conservation. Together, we can make a big difference!

Ahana Gupta
IV - H

Water Conservation

What is water conservation?

Water conservation means saving water, a precious resource that all living beings need to survive. Water is limited, so we must save it for our future generations.

Ways to save water...

1. Fix leaky taps.
2. Turn off the taps while brushing teeth.
3. Take shorter showers or use buckets instead.
4. Collect rainwater for reuse.
5. Reuse RO wastewater for watering plants.

Even though we are children, we can help save water and protect all living things on our beautiful planet, Earth!

Together we can make the difference.

Anahita Gautam
IV - F

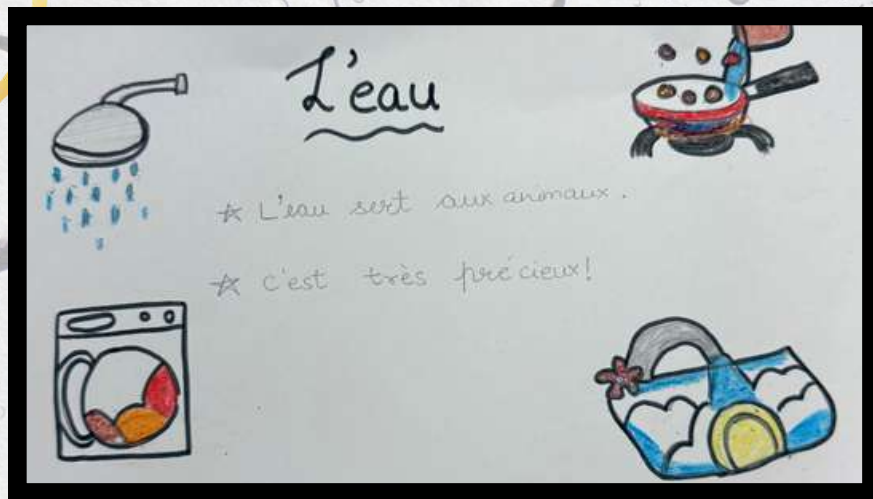

Water is vital for life

Water is vital for life, yet it's often wasted. As the world's population grows and climate change continues, using water wisely is more important than ever. Small actions like fixing dripping taps, using water-efficient tools, and avoiding wastage of water can make a big difference. Saving water today ensures a sustainable future for generations to come.

बूँद

सब कहते हैं, जल ही जीवन है।
पर मैं कहती हूँ, जीवन ही जल है।
अगर जल न होता तो पशु-पक्षी न होते।
जल न होता तो पेड़-पौधे न होते।
जल न होता तो हम और आप न होते।
आओ, दोस्तों, हमें हाथ बढ़ाना है।
हमें हाथ मिलाना है।
इस जल की बूँद-बूँद को हमें बचाना है।
समायरा रोहॉल
३ - 'स'

हर बूँद है अनमोल...

जल की बूँद

मैं हूँ छोटी-सी जल की बूँद,
धरती को दूँ, मैं हरपल भरपूर।
नन्हें पौधे प्यासे प्यारे,
मेरे बिना वे होंगे बेचारे।
अगर मुझे तुम व्यर्थ बहाओगे,
कल सूखे भविष्य को बुलाओगे।
बचाओ मुझे, सँजोओ मुझे,
जीवन की धड़कन समझो मुझे।
लास्या सिंह
३ - 'स'

हर बूंद है अनमोल...

अमूल्य उपहार

लगभग ३.५ अरब वर्ष पूर्व जलाशयों में हुए जीवन के प्रारंभ से ही, जल, पृथ्वी पर जीवन का पर्याय बना हुआ है। जल में प्राकृतिक रूप से पाए जाने वाले रसायन, लाखों तरह के जीव और जीवाणुओं को पोषण प्रदान करते हैं। मनुष्यों की प्रारंभिक सभ्यताएँ भी नदियों के किनारे ही विकसित हुई थीं। परन्तु वर्तमान समय में बढ़ रहा प्रदूषण, प्रकृति के इस अमूल्य उपहार को नष्ट कर रहा है। ज्ञात रहे “जल नहीं तो कल नहीं।”

वाणी काण्डपाल

५ - 'अ'

जल है तो कल है

कल विद्यालय जाते समय एक बस के पीछे लिखा हुआ देखा की "जल ही जीवन है, बूँद-बूँद बचाएँ"। थोड़ा आगे जाते ही देखा की एक नल से लगातार पानी बहकर सड़क पर जा रहा था, मैं समझ नहीं पा रही थी कि कैसे इस जल की बर्बादी रोक्कूँ। फिर मैंने सोचा कि यदि हम अपने दैनिक कार्यों में जल संरक्षण करें तो इस दौर के जल समस्या में सुधार ला सकते हैं, जैसे की आ.रो. और ए.सी. का जो अपजल होता है उसे हम पौधों में डाल सकते हैं। ऐसे ही कई तरीकों से हम बूँद-बूँद जल बचा सकते हैं, क्योंकि "जल ही जीवन है।"

मिराया जैन

४ - 'अ'

जल

कितना सुंदर, कितना निर्मल,
जल देता है, जीवन पल-पल।
इसके बिना नहीं रह सकते
जीव-जंतु, फल, फूल और पत्ते।
जल को नहीं नष्ट करना है,
इसको सदा बचाए रखना है।

बारिश का पानी न बह पाए,
नल भी खुला छूट न जाए।
नदियाँ अपनी स्वच्छ रहें,
पानी संग्रह का लक्ष्य रहे।
हम बच्चों की है ज़िम्मेदारी,
जल से है हमारे कल की खुशहाली।

श्रीहान श्रीवास्तव

४ - 'द'

जल संरक्षण ज़रूरी है

जल संरक्षण का अर्थ है, 'पानी बचाना और उसका सही उपयोग करना।' इसके कुछ उदाहरण मैं यहाँ प्रस्तुत करना चाहती हूँ - जैसे त्योहारों पर प्रयोग किए गए फूलों, मूर्तियों और पूजन सामग्री को हम अपनी पवित्र नादियों में बहाकर उनको दूषित कर देते हैं। दूसरी मेरे अनेक साथी बोतल में पानी भरा होने पर भी, पानी भरने जाते हैं और पानी बर्बाद करते हैं। हमें ऐसा नहीं करना चाहिए और पानी को बचाना चाहिए क्योंकि "जल है तो कल है।"

देविशी बाथम

४ - 'स'

Every Drop Counts...

Save Water for a Better Tomorrow!

Water is one of Earth's most essential resources, yet we have often taken its abundance for granted. We should use it wisely and it is our responsibility to conserve it by following simple steps like using a bucket instead of a shower, fixing leaks and harvesting rain water. Conserving water is important to ensure its availability for future generations and to protect the environment.

Ritu Tandon
Faculty Member

Water

Water, life's essence so pure,
Quenching thirst, a divine cure.
We can't live without it, it's true,
Let's cherish this gift with endless love and care.
Conserve each drop, for you and me.
Every small step, makes a big change,
For a brighter future, let us be the change.

Tanupriya
Faculty Member

Era of Water

Water was once considered an abundant resource,
Now emerging as a deficit source.
The 21st century has become the era of water war,
As people are facing scarcity so far.

It's time for collaborative management,
To make it sustainable for current and future generations.
Water is not just life,
It's the future of our planet and a way to be alive.

Archana Varshney
Faculty Member

Water is Precious

Water's precious touch, a crystal shine so bright
Without water, life's unimaginable plight
A treasure we must cherish, day and night
But people waste it, unaware of its might
Let's value nature, and value life's light
For every drop counts,
Let's preserve it,
and make the future bright!

Ayushi Gupta
Faculty Member

Water is Precious...

Water

The colourless, odourless and tasteless liquid i.e. Water has been widely recognized as the foundational constituent of life on our planet Earth. Hence, any activity for the conservation of this important resource, water, would have a direct bearing on the quality of our lives and on the biotic sphere around us. Thus 'Conserve water to Conserve Life'.

Mariya Fatima
P/O Ibraheem Ahmed
III-A

The Wonders of Water

Water's cool, it sparkles and flows,
In rivers and lakes, it happily goes.
Save every drop, don't let it run,
Turn off the tap, make saving fun!
For fish and trees, let's keep it clear,
Water's precious, so let's all cheer!

Priyanka Soni
P/O Anshika Soni
III-C

Importance of water

Water sustains every heartbeat of the Earth. Yet, rising demand and careless waste threaten this precious resource. By storing rainwater, reusing wisely, and teaching our children respect for every drop, we protect not just water, but life itself. Conserving water today means gifting tomorrow a chance to flourish.

Aumbreena
P/O Sara Wakas
IV-A

Water is Precious

The flow of water from Himalayan den,
Gives life to Earth, unknown since when.
Neither gold nor silver, nor treasures vast,
But water revives our strength at last.
Let's guard each crystal drop of rain,
Precious gift to nurture grain,
To sustain all life, again and again.

- ▶ Adhrit Chatterjee of Grade IV and Jaiveer Benipal of Grade V secured the Second Position in the event, 'Matheletics Rumble' and Myra Lamba of Grade III bagged the Second Position in the event, 'Expressive Echoes' in the Inter School Competition, 'Confluence', held at Pragyan School on August 09, 2024.
- ▶ Vaibhav Bindlish of Grade V completed all levels of the UCMAS Abacus and Mental Arithmetic course and earned the Third place at the UP State level.
- ▶ Shrestha Nigam of Grade V is amongst top 100 students in the Science Promotion Orient Test conducted by Vikram Sarabhai Science Foundation.
- ▶ Adhrit Chatterjee of Grade IV and Sharanya Yogesh of Grade V bagged Third Position (2nd Runner up) in the Budding Scholar Category at the Inter School Competition JYB The MRIS Quiz League - Season 8 organized by Manav Rachna International School, Noida on November 27, 2024.

Through Young Eyes...

Save Water, Save Life

Water is cool, shiny, and sweet,
It helps flowers grow and crops we eat.
Turn off the tap when you don't need,
Save water fast, so plants succeed.
Water is life for all to share,
Let's protect it with love and care.
Rivers and lakes, clean and blue,
Saving water is good for me and you.

Aaradhya Garg,
II-C

Water is Magic

Water is like magic. It falls from the sky as rain, it dances in rivers, and it hides in the sea with fishes. When I drink water, I feel strong like a superhero. My teacher says if we waste water, the earth will cry. I don't want my planet to be sad. So, I close the tap, water plants with love, and share water with birds. If we all save water, the earth will smile forever.

Krishna Mishra,
I-B

Don't Let Our Future Evaporate

Water is more than what we drink,
it cools the soil, it makes us think.
A stream may wander, a raindrop may fall,
without their touch, there is no life at all.
Save what you can, both small and great,
for wasted drops return too late.
Guard water—our earth's quiet fate.

Aarya Chauhan,
I-I

Water Is Life - Let's Not Drain It Away

Water is the most important resource on Earth. Without water we cannot live. It is necessary to save water for our next generation. We should not waste water as it is not good for us and our environment. We all need to use water wisely and protect our mother Earth.

Kiara Kumar,
II-H

Thank You Water!

Water, water, clear and bright,
You make the world so full of life.
I will save you every day,
So you don't just go away.

Parth Midha,
I-E

Small Habits, Big Impact

Water is our best friend. We drink it, play with it, and it helps flowers grow. If we waste water, rivers and lakes will cry. I will always turn off the tap and save every drop, because water is life!

Chirush Gupta,
II-A

Voices from the Staffroom...

जल ही है हमारा जीवन जल ही है
जल ही है मेरा संरक्षण

हर बूंद की है यह कहानी
बूँद-बूँद में है यह जुबानी
कभी किसी को प्यास बुझाती
कभी किसी की प्यास है बढ़ाती

बिना इसके एक दिन क्या
पल-पल है जीवन मुश्किल
जहाँ मिले वहीं पी लो,
नहीं मिले तो तरसते रहो

बचा लो इस बूँद-बूँद को
बूँद-बूँद ने ही समेटा है सबको
बूँद-बूँद से बुझती है सबकी प्यास
जिंदगी में यही है ख़ास

बचा लिया तो जिंदगी है हमारी
बिना इसके जिंदगी है अधूरी
जल ही है हमारा जीवन
जल ही है मेरा संरक्षण।

प्रियंका श्रीवास्तव
शिक्षिका

Drops of Hope

Water, water everywhere,
yet thirst echoes louder.
Imagine a desert: miles of heat,
hearts parched.
Are we thirsty for water—
or for wisdom?
One quiet act,
a ripple, a revolution.
From me. From you.
Changing something.
For someone. Someday.

Manjula Pal
Faculty

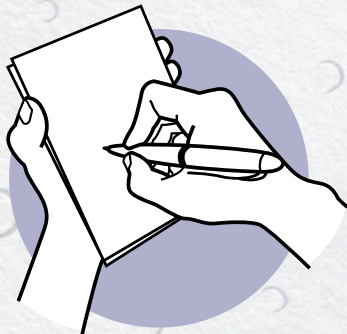

Voices from the Staffroom...

Save Water, Sustain Life

Water is the lifeblood of our planet - vital for drinking, farming, cleaning, and sustaining life. Though abundant, only a small fraction is fresh and usable. Wasting it threatens future generations and silences nature's rhythm. Conserving water honours Earth and supports SDG 6, reminding us: every drop saved today secures life tomorrow.

Aadarsha Shukla
Faculty

Every Drop Matters

Water gives life, yet we let it fade,
Forgetting the promise nature made.
To save each drop is a mindful art—
A fresh new world begins with heart.
Strong lives, blue skies, and fields in bloom,
The choice is ours to lift the gloom.

Vyanjana Aggarwal
Faculty

Small Habits, Big Impact

Every drop saved today secures tomorrow's needs. Simple habits turning off taps, reusing water and rainwater harvesting can make a powerful impact. As women, we nurture families, let's also nurture nature by valuing and protecting our planet's water.

Nupur Choudhary
Faculty

Partners in Learning: Parent's Perspective...

Cloudy

Cloudy, cloudy, why don't you rain?
My plants are dying, my grass in pain.
My water tanks are empty, my taps are dry,
I am so thirsty that I want to cry.
Little girl, little girl, why should I rain,
When all my hard work just goes in vain?

From far away oceans this water I bring,
But you waste it each day, as if it's nothing.
Cloudy, cloudy, I'm ashamed you are right,
I do waste water each day and night.
I thought the water would never end,
But now I know it's wise to save and spend.
Little girl, little girl, now I'm happy to rain,
You understood well, I have nothing to complain.
Life is water and water is life,
To conserve it daily, we all should strive.

Syed Humam

P/O Syed Humayd - K1 Plum

जीवन की इस धारा में ,
अमृत सा बहता जल,
कब ना जाने इस जल का
फिर ना रहे कल ,
पलती जिससे पूरी सृष्टि,
क्यों नही पड़ती इसमें किसी की दृष्टि,
कहते हैं जिस जल को ये जीवन ,
फिर क्यों नहीं जल संरक्षण को जन- जन,
जल संरक्षण ही एकमात्र सुझाव,
इसमें चाहिए जन-जन का झुकाव,
जीवन की इस धारा में,
अमृत सा बहता जल,
हमें मिलकर बनाना होगा,
अपना आने वाला बेहतर कल ।

श्रीमती सुनीता आगरी

अभिभावक- गौरांश आगरी - K2 रूबी

A Drop Preserved is a Life Prolonged...

Water is not just a resource; it is the heartbeat of our Earth. If we waste water, life will face drought and big problems. Saving water means saving our future, our food, and our families. We must start conserving today, because tomorrow may be too late.

Dr. Parul Gupta
P/O Aprameya Mittal - K1 Pine

Water is life's promise for tomorrow. Small habits—like turning off taps or reusing water—teach care and responsibility. When children respect water, they learn to value life. If every family saves a little, we can ensure green fields, flowing rivers, and a future where no one thirsts. After all, every drop we save today is a promise kept for the generations to come.

Ms Bharti Benipal
P/O Navbir Benipal - 1 F

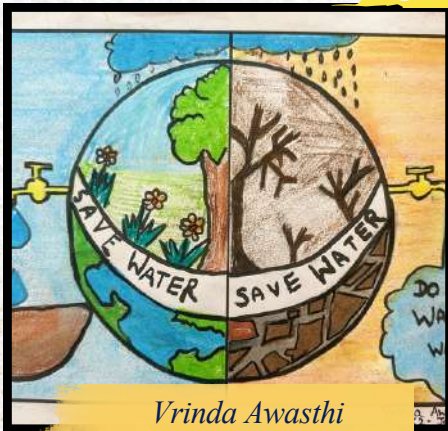

Water is life itself, yet its existence is threatened by misuse, pollution, and climate change. Every drop counts, making wise and efficient use is essential. We must adopt water-saving habits now - before it's too late. Steps taken at right time is always better than repentance.

Ms Vani Bhatia
P/O Saahil Bhatia - Early Buds

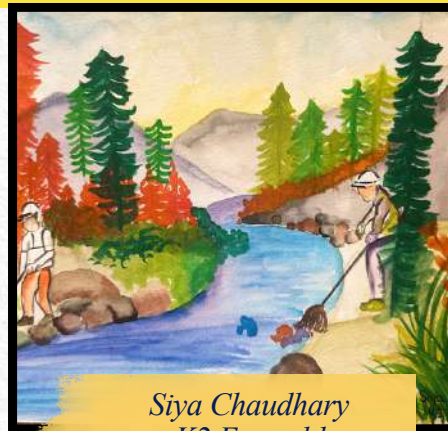

पानी तेरी कहानी, आज सबको है सुनानी I
पुरखों ने जानी, हमने ना मानी I
बोतल में भरकर, बनाई अमीरों की निशानी I
थोड़ी सी लालच, लाई परेशानी I
कहीं सूखे नाले, कहीं नदियाँ उफानी I
दो बूँद जिसके, देती है ज़िंदगानी I
हर कीमत पे हमको, उसे है बचानी I
